

Perseverance Checklist

What have you tried today?

We are learning...

Put a check next to the perseverance strategies you used when you were stuck or something was hard for you.

Next Time I will...

I put the instructions in my own words.

I asked myself questions and made a plan.

"What am I supposed to be doing right now? How will I do it?"

"How will I know I am done?"

I tried it a different way.

"What different ways can I do this?"

I used classroom resources to help me.

"Do I have notes on this? Is there an example on the board? Is there an anchor chart on the wall I can see?"

I used what I already know to help me.

"What did I learn about this?"

"Did I learn something just like this before that will help?"

I asked a friend for a clue.

"Can you give me an idea about how to start or what to do next?"

"I want a hint, not the answer."

I asked the teacher to get me started.
